### Clinical Load Index (CLI)

During your annual membership renewal, your center is asked to provide your utilization and clinical capacity by 8/30 of each year. We carefully audit each and every submission to ensure the CLI distribution is accurate and representative. The data below has been checked and/or audited by CCMH. Athletic departments, training clinics and brand new centers are excluded, as your operations are unique- but please reach out if you have questions about your submitted values or how to apply the CLI to your center.

If there are no values below, your center may not have provided your values by 8/30, or did not respond to audit; therefore we could not include your center in our analysis. Though we don't have your data in our records, you can still use the [CLI Site](#) to calculate your CLI.

**2022-2023 CLI Information**

- 22-23 CLI: 124.00
- 22-23 Utilization: 3653.00

Mindlist 22-23 Clinical Capacity: 707.00

\*If there is no data present in your profile, this means that (1) you may not have submitted your utilization to CCMH, or (2) the data you submitted on the CCMH renewal form was out of the expected range and required audit, but we were unsuccessful getting ahold of you to audit your data, therefore your data was excluded from the CLI distribution. Please reach out to CCMH ([ccmh@psu.edu](mailto:ccmh@psu.edu)) if you have any questions.
